SEE MORE. DIAGNOSE WITH CONFIDENCE.

Less than 100 μm resolution.

Designed for the discerning hospital market, the ***ExamVue Apex*** flat panel detectors offer unparalleled performance and versatility. Compatible with all x-ray generators, these detectors seamlessly integrate into your existing infrastructure, delivering exceptional image quality. Leveraging Cesium direct-deposit technology and high resolution, the ExamVue Apex ensures exceptional image clarity for all patient sizes and eliminates the need for generator wiring.

The ExamVue Apex's ***glassless design*** ensures a lightweight and streamlined workflow. Equipped with built-in ***drop sensors***, the device operates independently on a dedicated battery with a six-month charge, eliminating the need for constant panel power. These sensors actively monitor for sudden movements, stops, or impacts, recording any incidents for review.
